## **President's Report**

**February 9, 2015**

- 1. Apartment Building** – Nothing to report on this project.
- 2. Snow Removal** – I would like to thank our Maintenance workers for their long hours and hard work clearing our streets. Hopefully, we will get some warm weather soon so that the snow can start to melt away and we can get our streets and alleys back.
- 3. Street Surfacing**– I spoke with Keith Mulholland about this years street resurfacing. We will be setting a date in March to do another drive through to look at the areas that will need work to be done. This would give us plenty of time to identify which streets we want to tar and chip and to solicit bids for this project. We also have the list of work that was never completed from last year. Keith will make sure that whatever company wins this years contract has the resources to actually do the job this year.
- 4. Waste Water Reclamation** – When I was speaking with Keith, I asked him to see if there was any Grant Money available to look into the possibility of reclaiming the our wastewater and selling the solid product that we produce. Bill Jennings had brought me some information that other communities are currently doing. So I passed it along to Keith just to see if there would be grant money available for a “Green” project like this one. I’ll let you know what he says.
